Q6: 3. **Decorators:**

A6: asjdnakjsndnas

Feedback: The answer does not address the question about decorators at all and appears to be gibberish. Please

Score: 1/5

Q7: What is a decorator in Python, and how is it used? Write a simple decorator that logs the execution time of a function.

A7: A decorator is a function that takes another function as input, adds some functionality

A7: to it without modifying its source code, and returns a new function. Decorators are

A7: commonly used for logging, access control, timing, caching, etc.

Feedback: The candidate provided a clear and accurate definition of a decorator and its common uses, but they

Score: 3/5

Q8: 4. **Generators:**

A8: okay

Feedback: The response lacks depth and does not demonstrate any understanding of generators or their applications.

Score: 1/5

Q9: What is a generator in Python, and how does it differ from a standard function? Write a generator that yields the squares of even numbers up to 100.

A9: A generator is a special type of function that returns an iterator and produces items one

A9: at a time, using the yield keyword. Unlike a standard function that returns all results

A9: at once and exits, a generator yields multiple values lazily, pausing after each yield

A9: and resuming when the next value is requested. This makes generators memory-efficient for

A9: large data sequences.

Feedback: The candidate provided a clear and accurate explanation of generators and their differences from standard functions.

Score: 3/5

Q10: 5. **Context Managers:**

A10: okay

Feedback: The response lacks depth and does not demonstrate any understanding of context managers or their applications.

Score: 1/5

Q11: Explain what a context manager is and how it is implemented in Python. Can you write a context manager to manage a file?

A11: sfsdnfndk

Feedback: The answer does not address the question at all and lacks any relevant information about context managers.

Score: 1/5

Q12: These questions should help assess the candidate's intermediate Python proficiency and

A12: nfsdfknsd

Feedback: The answer does not address the question at all and appears to be gibberish. Please provide a relevant answer.

Score: 1/5

Hiring Recommendation:

Not recommended for hiring.

Reason: Candidate has less than 2 years of experience.
